

EAST MARSHALL HARD SURFACE ROUTES

During some periods of inclement weather and poor road conditions throughout the school year the districts busses will not run regular routes. We will run hard surface routes in order to insure the safety of all passengers and to prevent any unnecessary wear and tear on the busses and gravel roads. When we are running hard surface roads, you as parents/guardians will be expected to transport your student to the nearest hard surface pickup location or attendance center. The hard surface routes are as follows.
